Irish Philately

INDEX

1963-2021

Notes

The IPC journal ***Irish Philately*** has been published every year since 1963, with only one exception, when in 1972/1973 four issues of a joint IPC/EPA publication were produced. These were entitled ***Journal of Irish Philately***.

The joint IPC/EPA publications listed in the index are identified by the addition of 'ji' and the issue number, as per the following example **1972/4 ji 3**, which indicates that it was the fourth journal in the year 1972, that it was a 'joint issue' and the third of the IPC/EPA joint publications.

There were four issues every year from 1963 to 2019, with the exception of 1965 and 1966 which had three issues per year, 1968 with one issue and 2007 when two issues were produced. From 2020 onwards there are just three issues per year.

"That Was The Year That Was" was included in the publication until 2000 but issued as a separate supplement from 2001 onwards. Three other articles were also issued as separate supplements. All supplements are indicated on the index as 'Supp'.

F.E. Dixon's Random Notes: These were included in ***Irish Philately*** from 1972. Publication of these notes ceased in 1988. Since inclusion in this index would involve a large number of similar entries, they have not been included.
